What is it?

d3mobile is a 3D modeling championship aimed at promoting interest in science in students born between 1997 and 1999/ you will use two things you know very well in this competition, your mobile and a computer.

Did you know?

3D precision models are used on a daily basis in Formula 1, football, movies, fashion, videogames and much more.

Would you like to know more?

find out the level you can achieve with your own e practice, analyze conclusions, improve your 3D models championship.

How can I participate?

It is very simple, just gather 2-4 classmates to make up a team and get a teacher to support you/ Check www.d3mobile.es to sign up with your team.
